Introduction

TMOTT Web Design is an Internet solutions provider which delivers e-business, graphic, branding and multimedia solutions to small, mid-size and large businesses and is owned and operated by TMOTTGoGo Media. The Company uses the latest web-based technology to manage existing sites as well as develop new e-business solutions for our clients. TMOTT Webdesign covers the areas including graphics, programming, technical writing, beta testing, animation and consulting. TMOTTGoGo Media was founded in November 1996 and owns and operates several web properties which include TMOTTGoGo.com. The Company is located in the DMV metro area.

Nice to meet you! I'm Kato Hammond, and I'm a Freelance Graphic Designer, Web Developer, and Illustrator. I've been freelancing for the past 17 years, and at this point in my career I've worked with hundreds of clients from around the region on more projects than I can count. Freelancing has given me the opportunity to be a part of exciting, unique, and sometimes strange projects, and has also led me to meet and work with amazing designers, developers, and organizations.

A few of the folks I've had the pleasure of working on projects for are:

- Rare Essence
- Familiar Faces
- Chuck Brown
- Newspaper Association of America
- Electronic Scriptorium
- Full Circle Entertainment
- DC Teen Xtreme
- Howard Theatre
- Bag of Beats Records
- Peaceoholics
- Wylie K & Friends
- TMOTTGoGo Magazine
- Metro Video & Film Festival
- Tuff Crowd Conglomerate
- Young Playwright's Festival
- Universal Tax Service, LLC
- Women UnderConstruction
- The Timid Palate

FAQ

What information should I have ready when purchasing my website package?

We will need background information about your company, product or service. We will also need contact info, products and services, and any other information you intend to present on your website.

What preparations does my business have to do to get online?

For new businesses, we will help you get started from scratch. If you are an existing business; fliers, logos, brochures, photographs, business cards etc. will help us get a full understanding of what your business offers.

What does 'Website Maintenance' and 'Website Updates' mean?

Website Maintenance or Website Updates refers to changes made to your website after the initial design & setup. Keeping a website up-to-date is essential in growing your audience and having repeat visitors to your site. Updating the site with sale information, articles, pictures, videos, audio, new products, newsletters, press releases and links are all examples of website Maintenance. We are happy to assist you with any changes.

What is your typical turn around period?

Due to the collaborative process involved in each project, it's difficult to predict an exact turn around time. We will work together with you to complete your project in a timely manner. We agree to work expeditiously to complete the necessary work, but delays can occur if any milestone that requires your action, such as approving design mockups or web design changes, is not acknowledged on time. Typical turnaround times are anywhere between 3-6 weeks after we've received payment and all required content from you.

Who writes the copy/text for each of the pages on the website?

You are responsible for writing the copy/text for your website. We will place your supplied copy on the website for you.

Will we get a chance to review and suggest modifications to the website before it is launched?

Yes. Each project includes two rounds of revisions in it's development cycle. The development cycle is the project start through the project completion.
